LUCKIES — a light smoke
of RICH, Ripe-Bodied TOBACCO—its TOASTED LUCKIES ARE LESS ACID

Luckies are less acid

All kinds of people choose Luckies, each for reasons of his own. But everyone agrees that Luckies are A Light Smoke of rich, ripe-bodied tobacco. It is a rather surprising fact that the leaves of the same tobacco plant may vary for more than the leaves from plants of quite different types. Chemical analysis shows that the top leaves contain excess alkaloids which tend to give a harsh, unpalatable taste. The bottom leaves tend to oxidize in the smoke. It is only the center leaves which approach in nature the most palatable, odorless alkaloids. In Lucky Strike Cigarettes, the center leaves are used.
